Feedback group 28 task 54

by group 30

Pros

- Nice explanations
- Very helpful that you marked the different parts of the equations (for example at 02:17)
- Take home message at the end

Cons

- Maybe write the equations yourself instead of inserting a picture, looks better and does not seem to be blurred (like for example at 02:43)
- Empty line between 1st and 2nd question -> looks strange

All in all, your video is a very good explanation of the Bayesian Regression. Great work!

Best regards
